Achievements

Frontend Achievements

- Built multiple responsive and user-friendly web interfaces using **HTML, CSS, JavaScript, and React**.
- Implemented modern UI/UX features including component-based design, animations, and reusable layouts.
- Optimized page performance and improved loading speed using best frontend practices.

Backend Achievements

- Developed secure and scalable REST APIs using **Node.js & Express**.
- Implemented user authentication, data validation, and role-based access in backend systems.
- Integrated complex database queries and optimized backend logic for better performance.

React Native

- Developed cross-platform mobile apps using **React Native + Expo** framework.
- Integrated navigation, animations, and custom UI components for smooth mobile experience.
- Implemented push notifications, image handling, and API integration using Expo libraries.

Technical Skills

Language: JavaScript, C++

Web: HTML, CSS, Bootstrap, Tailwind, React, Node.js, Express.js, Mongodb, Firebase, expo

Expert: MS Office, AI Prompt Engineering, English Speaking, Team Work

Education

GCUF(2023-2027)

Bachelor of Science in Computer

CGPA :3.50/4.00

About Me

I am a passionate and dedicated developer with hands-on experience in front-end, back-end, and mobile app development. I specialize in building responsive web interfaces using React and modern JavaScript, along with cross-platform mobile apps using React Native and Expo. I have strong knowledge of Firebase for authentication, real-time databases, and cloud storage. I enjoy learning new technologies, solving real-world problems, and writing clean, efficient code. With a strong focus on user experience and performance, I aim to deliver high-quality digital solutions. I am always eager to improve my skills and contribute to meaningful projects.
